Sea-cruiser “Wappen von Anklam” Donation call

Our association the Seesportclub Anklam e.V. – was founded in 1969 and is dedicated to seamanship and sea sports. Especially the education of children and young people is part of our activities.

We own the “Wappen von Anklam” – a 1600 square feet sea cruiser, built in 1953 in the Neptun shipyard in Rostock (East Germany). **This ship is one of the last of its kind.**

The ship is mainly used to educate children and young people and cruised thousands of miles.

More information (in German) – www.ssc-anklam.de

During the annual maintenance in spring 2010 we received the bad news that a major part of the planks is due for replacement in order to maintain seaworthiness.

The price tag of **60.000** is exceeding our budget. Therefore we are asking you to help us in rebuilding this ship – **each Euro counts!**
